The Hyattsville district Sunday School convention will convene at Pleasant Grove church next Sunday afternoon at 2:30. The public is cordially invited.

Let us waken up to the necessity of getting every man, woman and child into a Sunday School and then make them feel the appeal of that service so keenly that they will continue to go.

Preparedness is the slogan of the day everywhere! It is being urged and talked along every line from our United States navy and army to the advertising columns of the magazines.

Why not use it in our "Go-To-Sunday-School" campaign?

When women cast their votes.

"You sure have got us beat."

The Record suggests that a committee be appointed whose duty it shall be to formulate plans for a home-coming invitation to be sent to all known wanderers from the best county in Kentucky, and that a hospitable people welcome them on their return, and also, incidentally mention that the hen roost will be robbed and the fatted calf killed for the occasion.

This government will not linger dally with Mexico. Patience has long since ceased to be a virtue. Instead of the U. S. fixing a time limit to withdraw from Mexico, that recalcitrant set of outlaws should be given a time limit of establishing a staple, responsible government under penalty of the U. S. establishing a respectable government for them. The army of this country, now being directed to the border, will convince the Greasers that we mean business, which will likely end the trouble.

### ARMY MULES WANTED.

I will buy mules 14 to 16 hands high and 5 to 10 years old.

W. H. Burton.

### NOTICE.

All those indebted to the Lancaster High School for taxes and tuition for the year 1915, will save cost and trouble by calling and paying same as my books must be closed at once. Please attend to this. E. W. Harris, Treas.

### BOONE HIGHWAY.

In 1916 the Boone Way will be routed to Lexington, Davidson county, N. C., Boone's old home, and within the next eighteen months will be routed to Warrenton, Missouri. Boone's last home. Distance between the two homes, 1,000 miles.

### REDUCED RATES.

The L. and N. will sell reduced rates to the Churchill Downs races on May 13th and June 3rd for \$8.70 for the round trip. Tickets good for returning within three days from date of sale. On account of the Grand Commandery meeting at Frankfort a rate of \$3.45 for the round trip, will be on sale May 15th, 16th and 17th. Next Sunday May 14th excursion rates to Cincinnati and return for \$1.75.

### SCHOOL ELECTION.

The election of a trustee for the Lancaster Graded school created much interest last Saturday and resulted in the election of former trustee, Dr. J. A. Anon and the defeat of Mr. J. W. Elliott, who stood for re-election, by Dr. W. M. Elliott by a majority of 163 votes. About three hundred votes were cast and quite a number of ladies exercised their right of suffrage by voting for their favorite candidate.

### HELEN KELLER FAINTS.

Atlanta, Ga.,—Helen Keller, the world's most famous blind and deaf woman, "listened" to Enrico Caruso, the world's most famous tenor, in the parlor of a hotel here. She placed her fingers on his lips and throat and "heard" him sing the heart-breaking lament of Samson, the scorned and blinded giant, as he grinds the corn for the Philistines, who have made him prisoner. The tenor was so overcome that he cried like a child while Miss Keller fainted with emotion. A number of opera stars who saw and heard the incident were deeply affected.

### MURPHY WILL PROBATED.

In the Lincoln County court last Monday the last will and testament of the late W. H. Murphy was admitted to probate. The will was dated in 1912 and devised that his widow receive one half of his personal property, and one third of his real estate, the remainder to be equally divided among his five children. His estate is estimated to be worth about \$10,000.

### WALTON-CARTER

Miss Lucy Lee Walton, the beautiful daughter of Mr. Ed C. Walton, of Stanford, was married Tuesday night to Mr. Carl Carter, formerly of the Lincoln county capital, the nuptial ceremony occurring at the home of the brides uncle, Mr. Thomas Walton, in Atlanta, Georgia. The marriage vows being solemnized by the Reverend Foster, a Christian minister. The couple left at once for Asheville, N. C., where the groom has a good business position. The marriage comes as quite a surprise to the relatives and friends of the contracting pair as Miss Walton left home about a week ago for the Georgia Metropolis giving no intimation of her approaching marriage.

### HIGHLY HONORED

Miss Alice Rigney, who was a delegate to the Kentucky Christian Endeavor Union from the Presbyterian church of this city, was highly honored and complimented by that body while in session at Lexington last week. As a usual many are asked to take notes of the convention while in session and at the conclusion of the meeting these notes are submitted to a committee as to their accuracy and neatness, and to the gratification of her host of friends here, Miss Rigney was one among a few that was awarded a certificate and her name placed on the "Honor Roll" for her neat and well kept notes. Miss Alice is the charming daughter of Mr. and Mrs. W. O. Rigney and is popular among the younger set, being a member of the Junior class of our high school.

### AWFUL ACCIDENT.

Howard Jones, son of Mr. J. J. Jones, was instantly killed this afternoon near the Fort in the outskirts of Danville on the Stanford pike when he was run over by the large truck of Taylor and Son.

Particulars regarding the accident could not be learned as the Advocate went to press. One report was that Mr. Jones attempted to board the truck while it was in motion and lost his balance and fell beneath the wheels. The truck is being used in hauling crushed stone from the quarry to Danville.

Mr. Jones was a splendid young man and was about twenty-four years of age. The horrible accident came as a great shock to the many friends of the Jones family in this city. The machine was being driven by K. Smothers, colored.—Danville Advocate.

This accident is deeply deplored in Lancaster where this admirable young man had many relatives, being a first cousin of Mrs. J. R. Mount and R. E. McRoberts.

### MOTHERS DAY.

The second Sunday in May is Mother's Day. This year it falls on May 14. The beautiful thought of setting aside one day in the year to be devoted to one's mother was first suggested by Miss Anna Jarvis, of Philadelphia, who founded the Mother's Day International Association to provide the necessary organized support for the fostering of the movement. Thanks largely to her efforts Mother's Day has become a recognized institution as the day on which each of us should pause to acknowledge our debt of affection and gratitude to the "best mother who ever lived" on which we should be with her if we can and if we unfortunately cannot, should make a point of sending her a message of affection and cheer.

In co-operation with the effort to foster the observance of Mother's Day, the Western Union Telegraph Company has provided special telegraph blanks, appropriately decorated with an artistic design of carnation and bearing the legend "Mother's Day", on which all messages of those who wish to send a word of greeting or love to their mothers on this occasion will be delivered. It we cannot be with her on May 14, let us remind her, in this way that she is still with us in heart and love. The emblem of the day is the white carnation, and it is the hope of the Mother's Day Association that it will be worn by every one as a tribute of respect, not only for his own mother, but also for all the gentle and noble motherhood of the land.

### ACCEPTS GER-MANY'S PROMISES

The American Government has accepted Germany's promise to bring her submarine warfare under the limitations of the recognized rules of international law as insisted upon by the United States, and Washington now relies upon a "scrupulous execution of the altered policy." Germany is told in the note just forwarded to Berlin that the United States Government cannot entertain a suggestion that respect for the rights of American citizens on the high seas should in any way be made contingent upon the conduct of any other Government affecting the rights of neutrals and noncombatants.

### MID-SUMMER

#### PRESS MEETING.

The executive committee of the Kentucky Press Association will meet at the Seelbach Hotel in Louisville, Saturday at one o'clock to select dates for holding the mid-summer meeting, which will be held this year at Ashland. The committee is composed of Robert J. McElvaine, Woodson May, R. F. Forney, F. M. Thompson and R. L. Elkin.

### SUNDAY SCHOOL

#### ATTENDANCE.

The attendance at the various Sunday Schools of the city and county as far as we have been able to ascertain was the largest ever recorded. In the city the Christian church reported 303; Presbyterian 92; Methodist 60; Baptist 109; New Antioch 48; Buckeye Baptist 216; Buckeye Methodist 208; Old Antioch 93; Fairview 103; Hyattsville 169; Manse 88; Herring 83.

### BETTER SCHOOL

#### ATTENDANCE.

The compulsory school attendance law, it is believed, has been made effective by the re-modification of the school laws and approved by Governor A. O. Stanley. Under the provisions of the old law was all that could be placed as a penalty against a person who failed to comply with its provisions but the present law makes the offense a misdemeanor and the parent or guardian may be sent to jail to serve out the fine for non-payment. It is thought that the school attendance will be immediately improved as the direct result of the law.

### TELEPHONE COMPANY

#### MAKING MONEY.

The following clipped from the Elizabeth Mirror is of much interest here and no doubt many would like to have a little of this stock. It says:

"The Hardin County Kentucky Telephone Company is in a flourishing condition. The directors at a meeting Friday night declared an annual dividend of 50 per cent., the greatest in all its history. The company is a paying business enterprise to Elizabethtown, as it expends about \$5,000 annually in this city. The company heretofore has been reinvesting its earnings in repairs and extensions, and it is now in a first-class condition for business. The dividend this year will be paid out to stockholders, either in June or July."

### MALITIA TO GUARD

#### MEXICAN BORDER

National guardsmen of three States, Arizona, New Mexico and Texas, were called out by President Wilson Tuesday to aid in protecting the border against Mexican raiders.

In addition practically all remaining mobile troops of the regular army were ordered to join the border forces. By these orders approximately 8,000 additional troops were placed under Major Gen. Funston's command. Behind the orders is the plain intimation by administration officials that the whole strength of the National Guard will be similarly employed if necessary.

The orders were issued after a brief conference between President Wilson and Secretary Baker over a joint report from Gen. Scott and Funston, at El Paso. The two officers stated that the Glenn Springs raid made it plain that the border guard must be materially increased.

### KENTUCKY DERBY

To Be Run Next Saturday.

On next Saturday, the 42nd renewal of the Kentucky Derby will be run off at the beautiful course of the New Louisville Jockey Club, Louisville, which is world-wide known as Churchill Downs.

The Kentucky Derby which has been run off over this track without break of a single season since 1875, in this year as in the last two seasons called a \$15,000 stake, as in addition to the entries fees and subscriptions, the New Louisville Jockey Club adds \$10,000 to the race.

The event has 56 nominations this season, and the eligible embrace stars of the English and French, as well as the American turf, it having this season at least assumed the proportion of an international race.

### SCHOOL OF REFORM

Draws Three Of Our Youthful Negroes.

In Judge C. A. Arnold's court last Tuesday, the four negro boys charged with forging the name of William Simpson to two checks, were found guilty and three, James Nevius, Robert Kennedy and Henry Warren were given sentences in the School of Reform. The case against George Jennings was dismissed. Robert Kennedy, who claims to be only thirteen years old and who appears from the evidence to have been the "bell wether" of the worthless flock, under his sentence is to remain until he is twenty-one. This is James Nevius second trip to this important school and Judge Arnold thought a post-graduate course of two years would about fit his case. Henry Warren who seems an adept at writing checks was also given two years.

**CITIZENS OF GARRARD COUNTY.**

On July the first 1916, I close my mill doors for the time being. All parties that have flour in my mill on deposit are requested to take same out on or before that date.

I want to thank the people of Garrard County for their patronage they have given me in twelve years that I have been in the milling business. It has certainly been appreciated.

I leave the state after July the first with a warm spot in my heart for the people of Garrard County.

Respectfully,

**ALEX WALKER.**

## THE LUCKY FARMER.

When I was young I had to go and till the cornfield with a hoe. Ah, it was weary work, indeed; I paralyzed the noxious weed, and scraped the dirt around the corn, and yearned to bear the drifter home. I'd toil all day to beat the hand, till blisters came on hoof and hand, and then the husbandman would say, as he dug up my meagre pay, "Was that the best that you could do? You must have fended, the whole day thru!" And now I see the farmers ride on cultivators tall and wide, that till the corn and slay the weeds, as they are drawn by prancing steeds. A hundred frolicking lads with hoes might work all day along the rows, and not achieve as much, I ween, as would one green and red machine. The farmers of these modern days know naught of old time toilsome ways; they do their labors sitting down, and ride in choicest cars to town; they find the homile growing rank, and have to stomp it in the bank. —Walt Mason.

## OUR IDEA OF THE DESTINY OF GERM DISEASES.

After spending five years in states known over the entire Union as the necropolis for people afflicted with air passage and lung troubles, and after seeing and hearing of many people who had been afflicted with these troubles for many years in these states—people for whom the western air held no healing balm—we have decided to try to find some chemist who would experiment with germicidal and healing steam substances, or gases.

The only hope for the immediate downfall of the numerous microscopic germs that build colonies in the air passages and lungs lies in germ poisons, as yet unknown to science, by these poisons, and healing substances will have to be converted into gases or steam before inhaling.

With no great amount of experimenting very successful results may be found that will throttle the great white plague forever.

The blood germ diseases, such as typhoid and malarial fevers, will as the future approaches, no doubt, be cured by draining small amounts of blood from the body, killing the germs on the outside of the body and then by an apparatus, as yet unknown to science, be retrained into the blood vessel from which it was taken. By draining small amounts at intervals from the body, poisoning the germs and returning the blood much time will be saved in curing blood germ diseases.

## GOOD PRICES REALIZED AT EMBRY SALE

The sale of the personality's of the late Sam J. Embry, which took place at his late home near Stanford yesterday brought out a good crowd and the bidding was spirited and as a result, all stock sold well. Dinner was served abundantly to everybody and Col. I. M. Dunn, of Danville was the auctioneer. We quote a few of the sales: Two sows with 15 pigs, \$80. Fat hogs, \$8.85 a hundred; Shetland ponies averaged about \$90 a head; One Jack colt, \$295; One Jennet, 202.50; One four-year-old mare, \$175; One two-year-old mare, \$130; Three-year-old mare, \$161.50; One pair two-year-old mules, \$305; One pair, same age, \$350; Two-year-old horse, \$91; One yearling horse, \$75; One five-year-old trotting mare, \$225; One seven-year-old mare with mule colt, \$225. Farming implements sold at good prices and all grade of hogs and pigs sold well.

## DR. PURSLEY BUYS WHITEMOON REMEDIES

Through a deal which has been on foot for several weeks, Dr. J. J. Pursley, better known as "Dakota Jack," proprietor and sole manufacturer of the famous "Indian Remedies," with headquarters in this city, purchased last week of Mrs. Charles Whitemoon, of Louisville, the entire plant and all the remedies of this wonderful medicine. Dr. Pursley will consolidate the business in Louisville and all shipments will be made from that city.

The plant of the Whitemoon Medicine Company is now located some distance from the business section of Louisville, but it is the intention of Dr. Pursley to have the main office moved up town to be in closer touch with the retail trade which has grown to enormous proportions in the last few years. These remedies have become famous the world over and wonderful results have been accomplished through them.

## DEMOCRATIC CONVENTION SATURDAY MAY 20TH

County Conventions will be held in all the counties in Kentucky on May 20th, at 2:30 o'clock, to select delegates to the State Convention at Lexington on May 24th. Garrard county Democrats will hold their convention at the Court House in Lancaster. All Democrats are for the re-nomination of President Wilson and the leaders of the state having agreed upon the state

organization, there are no reasons for any friction or contest in these local conventions. We expect our local convention Saturday week to be entirely harmonious. It is the purpose of leading democrats all over the state to avoid, if possible, the raising of any question of a local nature that would tend to bring any friction or dissension to the party, so that Kentucky may give President Wilson a safe majority in November. As the State convention will be in Lexington, so convenient to us, a full delegation will attend from this county.

## LET THE PUBLIC KNOW

It will be a part of the program of the city school Board after the qualification of the trustees recently elected, as we are informed to annually publish a full financial statement of the receipts and expenditures of moneys of the Graded and high school. No one has any suspicion that the former Board did not properly handle the funds entrusted to it, but the Board was expending the public's money and the public's well as individuals want to know exactly to what extent is done with the money exacted of them in the way of taxation.

It is mandatory upon Fiscal Courts and Boards of Council of all cities in this state to annually publish a full and complete statement of all financial data by these bodies even to each claim allowed. For this failure there is a penalty under the law. It is a small expense and little trouble to give to the public this information. These respective bodies should strictly comply with the law and give to the taxpayers and the public at least annually this information. It would be a saving to the public to have it known that the right of publicity was going to be turned on and claims immediately.

The purpose of this School District will be pleased to know just who gets the public money, how much and what for. The small expense is no excuse to neglect this plan and positive direction of the law.

## KILLED BY BANDITS.

Three American soldiers, one a Kentuckian, Hudson Rogers, of Danville, and a 10-year-old boy have lost their lives and two American citizens have been kidnapped and carried south of the international boundary to almost certain death in another raid of Mexican bandits that takes rank with Francisco Villa's famous attack on Columbus, N. M. The marauders were Villa bandits and numbered about seventy.

Hudson Rogers was 17 years of age and enlisted in the United States a year

## LIFE OF SAVAGE TRULY SENSIBLE.

Admits Almost Unknown By Aborigines Are Common Now.

The theory that most of the ailments of today are caused almost entirely by these habits that distinguish the white man from his big game in the most every day.

The savage, in many ways, was a more sensible being than the man who came out of the forest, who taught him to hunt and then, when he was civilized, he took on the habits of the white man, and he took on the habits of the white man, and he took on the habits of the white man.

Young Rogers is the second member of his family who has been killed in the past week while on duty as a U. S. soldier on the Mexican border. The body of Winfield Mills, an American soldier for more than twenty-seven years, a cousin of Hudson Rogers' mother, is expected to arrive at Danville Wednesday for burial. The body is being brought from Columbus, N. M. following the advice of Ed Mills of Danville, a brother of the veteran soldier. The date of his death was not given.

**Needed an Audience.**  
First Man of large crowd interested watching street excavators at work—"That laborer in the yellow shirt seems to thoroughly enjoy his job." Second Man (explaining):—"You see, he has been an actor, but never played in such a large and attentive audience as this."

## ABOUT \$4,000,000 WILL BE SPENT THIS YEAR IN STATE AID FOR ROADS.

Public road improvement in Kentucky is beginning to reach a gigantic scale, and it is estimated at the Department of Public Roads that the total expended in Kentucky this year under state supervision will not be less than \$4,000,000. Of the 120 counties in Kentucky 98 have applied for State Aid and twenty-five have their work under way, while the Department of Roads is working under high pressure, considering plans and specifications and contracts in charge of each. This year, too, will see for the first time in a generation, convicts working on the highways. Madison, Harlan and Bath were the first counties to ask for them. It is not likely that the convicts will be used on the roads until after the new prison board is appointed in June.

## IN MEMORIAM.

Just as the mid-day sun was shedding its transcendent light over the most beautiful spring morning of April 23, 1916, the spirit of Nellie England Trickett, a most lovely girl, winged its flight into the portals of the celestial city.

"Ah, it is sad indeed, to chronicle the death of one so young and so fair. It is a sad termination of the short-lived life that was garlanded by the fairest flowers, it has lighted the fond anticipations of all the possibilities of the future life over which hung every promise of happiness; it seems as if she had herself made her life glorious, she had overreached it with stars; its pathway he had strewn with flowers, around her life he spread the glory of the physical universe, all that is magnificent in motion and sublime in magnitude surrounded her just as beautiful Nellie England laddered into lovely womanhood her life was crowned with the greatest boon of woman-life, the love and adoration of a fond and devoted husband. But, alas, he is alone today, bereft of this precious jewel, the very light of his life gone out. Oh, what means the almost tragical death of one who was undeniably itself. We can only think of her of all gentleness, beauty and purity.

Alas, she is dead, her dainty limbs are folded white and cold beneath the gloomy portals of the grave. The heart whose every beat measured an eternity of love is forever still. To the parents and husband we find no language adequate to express our sympathy in this bereavement, as words of condolence will not alleviate your sorrow. We can only say lean on the everlasting arm that is able to support you. We feel the grave cannot keep her, we know she is a happier world.

Think of her in her home of celestial bliss, all radiant with everlasting youth, never to grow old, no care will ever be hers; she will live forever in the presence of Jesus and with the redeemed of earth, will sing songs of praise until one day, by and by, you will cross the river of death and the beautiful wife, and daughter will meet you at the pearly gate and welcome you home where you can live forever with the happy throng.

Draw our earth-worn spirits upward, Upward to the realms above, Whisper to us words of comfort, Comfort, soothing peace and love, Stay thou with us as we journey, Journey and as strangers roam, Let thine unseen presence guide us, Guide us 'till we're gathered home, A Loved One.

**DAIRY and CREAMERY**  
**CARING FOR COWS TO GET BEST RESULTS**

(Prepared by United States department of agriculture.)  
To have healthy cows is one of the first essentials in the production of clean milk. If the cows are diseased their milk is liable to contain disease-producing bacteria or be otherwise abnormal. Such milk is neither clean nor safe as an article of food even though there is no visible dirt in it. The cows should be tested at least once a year for tuberculosis by a capable veterinarian, and if diseased animals are found the herd should be tested.

**A DIRTY COW A MENACE TO CLEAN MILK.**  
ed twice a year. All cows which react, showing that they are infected with the disease, should be removed from the herd and the stable and premises thoroughly disinfected. No cattle should be added to the herd without subjecting them to the tuberculin test before they are brought to the farm. They should then be kept separate from the other animals for at least sixty days and retested. Without the use of tuberculin the owner is liable to be confronted with serious and continuous losses. With its use the disease can be eradicated from the herd and the danger of its spread to man from this source removed.

**Groom the Dairy Cow.**  
Special attention should be given to the condition of the udder, and any milk which appears slimy,ropy, watery or otherwise abnormal should not be used as food. As a rule, milk should not be used within fifteen days before calving or during the first five days after calving. It is well not to use milk from cows which have been given powerful drugs, for it is known that medicines of this kind often pass through the tissues of the mammary gland and into the milk.  
The external condition of the cow is a most important factor in the production of clean milk. One of the greatest sources of milk contamination is the dirt on the animal's body. It is therefore essential that extra care be taken to keep the cow free from accumulations of mud and manure. Grooming is usually dispensed with, as it costs money, yet there is far more reason for the daily grooming of an animal that produces human food than of a horse which hauls a manure spreader or a carriage wagon. Custom, however, demands that the horse be kept clean, and this custom must be extended to include cows on farms where milk is produced. Cows on pasture usually keep cleaner than when in the barn; but, though they appear clean, they may be very dirty and should be brushed before each milking. When kept in stables they require a thorough cleaning at least once a day. It is well to clip the long hairs from the udder, flanks and tail in order that dirt may not cling to them. It is also desirable that the bedding be clean, dry and used in sufficient quantities to promote the comfort of the animal, especially where the floor is of concrete.

**Milk Before Feeding.**  
The cow should not be aroused, bedded or fed immediately before milking, as these operations fill the stable air with dust and bacteria. Frequent attention to the distribution of bedding is just as important as to supply a large amount of it. Often a four through the stables the last thing at night and a few minutes' attention to the distribution of the bedding at that time will save half an hour's work of cleaning the cows in the morning. If the manure is removed daily a considerable distance from the stable bad odors from it cannot reach the milk and the danger of contamination from filthy laden flies is lessened. The fly nuisance is caused by accumulations of manure, in which the flies breed, and if conditions are favorable the manure should be removed to the fields every day. Flies carry bacteria and filth, and earnest efforts must be made to keep them from the stable. If the stable and its surroundings are clean and free from accumulations of manure and other materials which attract flies it can be kept fairly free of them by the use of fly poison and traps. In addition to removing the accumulated manure from the gutter every day, the soiled bedding should be raked back into the gutter and replaced with clean bedding. No animals other than cows

should be allowed in the stable. The open shed system of keeping cows is advocated by many dairymen and has some advantages, but it is essential that the shed be kept dry and be open on the south side.

**Silage For Dairy Cows.**  
The feed for cows should be palatable and nutritious. Moldy and decayed feed and such feeds as may injuriously affect the cows' health are character of the milk should be carefully avoided. The silage and hay of milk are very readily affected by mold, cabbage, myrtle and other feeds containing strong odors, and when used should be given after milking, to prevent any possibility of contamination of the milk. If possible, no silage should be run with cattle or wild animals, the silage should be removed from the pasture several hours before milking.

When silage came into use as a feed for dairy cows there were many objections to it on the ground that it was unfavorably affected the flavor of the milk, but these complaints are now less common, as the best silages have been found to be caused by poor quality of silage, improper feeding or by the cause silage odors were absorbed from the stable air. Good silage, fed in reasonable quantities after milking will not injure the health of the cows nor impair the quality of the milk. It must be fed after milking and all unclean silage removed so that the silage odors will disappear from the air before the next milking. Many health authorities forbid the feeding of wet brewers' or distillers' grains to cows because such grains ferment rapidly and produce silage odors which are absorbed by the milk, and make it very unpalatable to the stable and cows become so filthy that the production of clean milk is impossible.

**Salt and Water For Cows.**  
Owing to the dust and odors which arise from the feeding of hay, grain and silage, it is best from a sanitary point of view to feed after milking rather than before. A liberal supply of salt should be provided in a place where the cows can have ready access to it. It is of prime importance that the cows have an abundance of fresh, pure water. Cows which produce twenty-five pounds of milk a day require seventy-five pounds or more of water daily, and instances are on record in which heavy milkers have consumed more than 200 pounds of water in that

GROOMING COWS TO REMOVE DIRT AND FOREIGN MATTER.

time. This large quantity of water is necessary not only for the formation of milk, but also for the digestion and assimilation of the large quantities of food consumed, much of which is roughage. It is not wise to permit cows to drink large quantities of ice-cold water, and in order to encourage them to drink water enough in extremely cold weather it is necessary to warm it slightly. The water trough should be kept clean and so situated that the cows when drinking will not be exposed unnecessarily to inclement weather.

**Treating Calves For Scours.**  
Calves that scour are treated in the following manner: As soon as symptoms appear from two to four tablespoonfuls of castor oil are mixed with one-half pint of milk and given to the calf. This is followed in from four to six hours by a teaspoonful of a mixture of one part salol and two parts subacetate of bismuth. This, too, can be given in one-half pint of milk, or the powder may be placed on the calf's tongue and washed down with a small amount of milk. The allowance of feed should be reduced at once and not increased until the condition of the calf warrants. In mild cases castor oil is unnecessary and therefore can be omitted.—Wisconsin Agricultural College.

**DAIRY WISDOM.**  
♦ Regularity in milking is essential to best results.  
♦ Dirty pails are a common cause of sickness in hand raised calves.  
♦ Incomplete milking tends to check the flow and shorten the milk period.  
♦ Carelessness in the selection of silage will quickly ruin a herd of good cows.  
♦ The man who will let a cow drop her calf while confined in a stallion or tied in the row of cows is unfit to own cows.

That new, black—  
“Barefoot” Rubber!

ONE of its most valuable characteristics, for Tire (and Shoe) purposes, is its CLING quality—its tenacious grip on smooth and slippery surfaces.  
Through this it gives its maximum Traction with a minimum of friction.  
When you put on the Brakes to stop the Car, or throw in the Clutch to start the Car, the Tires made of this black “BAREFOOT” Rubber instead of grinding against the ground for Traction, CLING to it, as your bare foot would cling to a slippery floor.  
That's why we've finally christened it, and trademarked it, as “Barefoot” Rubber.  
Get a sliver of it, from any Goodrich Branch or nearest Dealer.  
You'll find it stretch almost as much, and return to shape almost as instantly, as a pure Rubber band.  
Weigh a Goodrich “Barefoot” Tire of any size against the corresponding size of other makes of Tire, and you'll find it many pounds lighter, though many “Miles” stronger.  
Drive it, and you'll find in Goodrich “Barefoot” Tires a liveliness, a quick response to power, a tenacity of traction,—and all this with a mileage capacity which will surprise and delight you.

WE developed this “Barefoot Rubber” primarily for use in our now famous “Silver-town Cord” Tire which, last year, showed such marvellous ENDURANCE on the Race Track, at over 100 Miles per hour.  
But we now make it into Goodrich FABRIC Tires,—Goodrich Inner Tubes,—Goodrich Motor-Cycle Tires,—Goodrich Truck Tires,—Goodrich Bicycle Tires,—Goodrich Rubber Boots, Overshoes, Soles and Heels, as well as into Silver-town Cord Tires.  
Because,—in all of these its characteristics of “Cling,—Spring,—Stretch,—Strength,—and Lightness” are first requisites.  
Now, compare GOODRICH Fair-List prices with prices you are quoted for same size Tires of other Brands, that have not the wonderful Resiliency and Cling-quality of this new black “Barefoot” Rubber, which can be had in no other Tires than those made by—

Bleucher 46158, record 2:29, trial mile 2:14, half in 1:46, last quarter in 32 seconds, is a handsome seal brown horse, and will weigh 1100 pounds. He greatly resembles his good sire Silent brood and is out of Clay, by the great Futurity sire Moke.

Foreign demand has exhausted the supply and we may expect better prices for our horses in the future. Our advice to mare owners is to breed their mares and to breed them to stallions of merit and proven worth as sires. Bleucher is just the type to produce the colts that will supply the demand. His colts have proven fine, with nice head and neck and plenty of bone and conformation. This great trotting Stallion will make the season of 1916 at my stable in Lancaster, Kentucky, at

1st dam, Estelle Gillespie No. 4504 by Wilson King No. 2396.  
2d dam by Joe Blackburn.  
3d dam by Peter Halcorn No. 3212.

Bourbon Knight No. 3080 is a beautiful chestnut with white markings, stands 15 1/2 ft; will weigh 1,100. His manners are perfect. Harness and saddle extreme finish and style; action high, straight and fast. In presenting this horse to the public we know that he is no lottery for he gives extreme finish, and of the show horse type. Bourbon Knight has proven himself a great show horse in all company and breed. He has proven that he is worthy of his ancestry. Breeders of saddle horses rarely have the opportunity to breed to a stallion of such blood lines and as much class at the small fee of

**\$25.00 To Insure a Living Foal.**  
Will make the season of 1916 at the Fair Grounds, Harrodsburg, Ky. Money due at birth of colt or when mare is parted with or bred to another horse. Care taken to prevent accidents, but not responsible should any occur.

**Buster & Mitchell, Harrodsburg.**

**For The Season of 1916**  
I offer public service, the splendid individual and royally bred young combined Saddle and Harness Stallion

**Easter Prince 6636**  
At the low fee of \$15.00 to Insure a Living Colt.

Study his pedigree. Easter Prince 6636 will stand for mares at my barn in Lincoln County, on the Hustonville and Danville Pike.  
Care taken to prevent accidents, but will not be responsible should any occur. The insurance is forfeited if mare is sold or traded or bred to another horse. Breed your mares to this horse and get colts that will sell for the high dollar.

**The Best Blood of the Chiefs and Denmarks Blended.**  
EASTER PRINCE 6636. Brown colt, star, 2 hind feet white, 15 1/2 hands foaled 1913.

**Stewart Sandidge, Moreland, Ky**

**Artist Peavine.**

After a careful consideration, I have finally consented to allow my four-year-old chestnut stallion, Artist Peavine by Kentucky Peavine 2889 to serve a limited number of approved mares at

**\$15. To Insure a Living Colt.**

By competent judges of combined horses, this horse is said to be one of the best individuals in Central Kentucky. Space will not allow a lengthy discussion of the merits of this excellent horse, but a careful perusal of his pedigree will convince you, without a suggestion from me, that few horses in the State of Kentucky are his equal.

This horse is by Kentucky Peavine 2889, and out of a mare, Artie Rose, Register No. 11893, she by Kentucky's Artist. The entire pedigree on both sides (and he is royally bred) is in my hands for inspection and will take great pleasure in showing you this horse and his pedigree.

**E. Dunn**  
Two Miles West of Lancaster on New Danville Pike.

**NABOTH, JR.**

Naboth Jr., is a rich red bay, 6 years old and full 16 hands high, weighs 1225 pounds and is a horse of wonderful beauty, having a long, ringy neck and carrying a fine tail. He is a perfect gentile horse with superb all round action and like all sons of old Naboth he has great natural speed in harness. As is generally known there is a scarcity of good horses, and those suitable for the Eastern market bring fancy prices. If the breeders would raise "Number-one" horses they must take the mares to the right kind of sires. Naboth, Jr., beyond all doubt is a horse that will produce the type of horses that the market demands, and for which the public is willing to pay high prices. He has size, style, action, beauty and breeding.

If like buyers like you can get the right kind of horses by breeding to Naboth, Jr. You will note that this Stallion has the blood of Old Naboth, Hambletonian 10, Old Messenger Chief, Red Wilkes, George Wilkes, Manbrino Chief, Pilot, Jr., and Harry Clay.

**Pedigree.**  
Naboth, Jr., by Naboth, 1916 2:19, he by Walsingham, 2105, sire of Latitude 2:13 and several others in the list. Walsingham by George Wilkes. Old Naboth's first dam, Tinsel by Messenger Durock 106 son of Hambletonian. Second dam, Rosa sister to James Howell, Jr., by Hambletonian. Third dam, Jessie Sayre by Harry Clay 45. Fourth dam by Liberty, son of Lance, by American Eclipse.

Naboth Jr., will be kept during the season of 1916 at my stable near Bryantsville on the J. H. Dunn farm and will be permitted to serve mares at the very low price of

**\$10.00 To Insure a Living Colt.**  
At the same time and place, I will stand my fine Jack.

**NAPOLEON, JR.,**  
at \$8.00 to insure a living horse colt and \$10.00 to insure a living mare colt. Napoleon Jr., has proven a great breeder as all of his colts show for them selves. Also at same time will stand my beautiful spotted pony.

**Shelbark Jr., at \$10. to Insure Living Colt.**  
I am prepared to care for stock from a distance at reasonable prices, but no responsibility assumed for accidents or escapes of stock committed to my care

**L. TEATER, BRYANTSVILLE, KY.**  
I wish to thank my friends for their patronage in the past and ask for a continuance of same during this season.

WHY YOU WILL HAVE TO PAY MORE FOR PRINTING

From present indications there is going to be a paper famine in this country. For the past four months there has been a steady advance in the price of paper and as we write these lines it is still rising. A commodity even so indirectly related to the demands of war as paper is showing the prevailing tendencies to such a degree as seriously to embarrass publishers. The higher price of paper stock and the difficulty of obtaining it at all in England was a chief factor in the discontinuance in March of the London Daily Standard, after a career of sixty years, for a considerable portion of which it was the most important organ of the middle classes in England. In America the demand for paper has been increasing for six months as a result of general business activity. At the same time, supplies used in its manufacture have been decreased by war conditions, and in some cases have almost been shut off. The supply of old rags is affected by the cutting off of the importations from the European peasantry and by the demand for the making of gun-cotton. The chemicals used in bleaching the paper produced by sulphuric acid and alum are being devoured by the manufacturers of explosives, while importations of jute have fallen off until the price is doubled. An embargo has been placed on shipment of wood pulp from Norway and Sweden, while Canada stopped access to her vast resources some time ago. The newspaper publisher is, indeed, hard hit by war conditions in many other items of supplies besides the basic one of paper stock. Practically everything going into the manufacture of a newspaper has increased in price from 10 to 50 per cent—inks, owing to the advance in the cost of acids and dyes, from 200 to 3,000 per cent; type, owing to the higher cost of lead, tin and antimony—even the rubber and felt blankets wrapped around the press rollers add their quota to the increased "cost of living" of the newspaper.

Anxious To Be Doing.

Young Girl—Yes, I feel an intense longing to do something for others. "Friend"—Just whom do you mean by that? "Well, I suppose almost anybody outside of my immediate family—life."

What it Means.

"The 'obey' clause in the marriage ceremony merely means that when the husband takes a twenty-dollar bill out of his pocket and commands his wife to take it, she must immediately comply—and she does."
